Objective: To enable the student to have good health.

The course of Yoga for the student should be well formulated in terms of contents, aptness and graded so that what is learnt earlier works hand in glove with what follows. Practices should be progressive – from easy to difficult; ideology should only be explained students of a later class who are mature to understand it. Keeping this objective in mind yoga training was given on the occasion of international yoga day. The students learn some yogasana on this day. The benefit of this program is that it promotes better self-care.
