Objective: To equip them with the skills required to find, acquire, keep, grow, and sustain a job in their chosen career fields.

Over the time, it has been proven that a person needs much more than just academic excellence to thrive in the labour market. There are some soft and hard skills someone must have to thrive in their specific career field. These are what employers look out for when seeking to employ candidates. Hence, the need for a career readiness program is felt, time and again and is given to the students of college on 03 March 2020. Dr Mamta Wagh has taken this session for the college students
