Introduction

In the era of globalization the importance of studies in economics is increased tremendously. Demand from the job sectors required variety of skill based subjects to study the current economic trends and needs interdisciplinary approach of research based studies to understand the government policies. Present day syllabi in the university are highly modified covering large numbers of topics which required expertise from specialized subjects in economics. A single college having limited faculties in the subject cannot provide every expertise in the broad subject. Therefore, inviting visiting faculties and resource persons in various subjects under economics is the need of the present day teaching-learning process. On the other hand, under UGC and NAAC guidelines dissemination of quality education in the campus is measures of quality institutes. Therefore, meeting the trends in modern day higher education, collaborative efforts towards achieving common goal is the best possible option.

These five colleges are affiliated with the RTM Nagpur University and the students learning in these colleges are from the suburban of Nagpur or from the nearby villages. These colleges have similar difficulties in teaching economics as an optional subject. Besides teaching-learning promoting high quality research amongst teachers and students is the need of the hour. Therefore, the likeminded HoDs and teachers of these colleges resolved to bring a MoU for various purposes related teaching-learning, research projects and research publication in the subject.
