SUGGESTIONS OF THE STUDENTS

- Everything is good
- Yes
- Excellent
- Such a good program students learn new skills new opportunity
- firstly, I am happy to join this multi skill development classes I wish you will arrange more informative classes for us thank you
- It is awesome program
- Program was Very Good but timing is our regular lectures and multi skilled lectures at same time,
- I suggest that if one session is on time management then we can learn how to manage our time. Most of the students want to do some other activities like painting, dancing with study but they can no do because of improper time management, they do not know how to manage time for some other activities with study so according to me if one session is conduct on time management then this session will help us.
- No, it is excellent program 😊
- This program can be improved by addition of more courses
